

WBS- stands for '**world bread supplier**' (Isaac Daye) by this meaning WBS goal and mission is to supply the bread of life freely to every spiritually hungry soul in this world, so those who know that they are spiritually starving will not die of hunger.

We all know that for bread to be produce and made available for consumption a price must be pay, in feeding the hungry the Apostle told Jesus that the bread of the little boy cost him and was insufficient (John 6:6-9), do you know that the little boy weaved the production cost of his bread and fish when he allow Jesus to use it, in other words he pay for the bread that was freely supply to the multitude.

Today the world stand at the thresh floor of not only physical starvation but also spiritual starvation it is at this crucial stage that WBS(world bread supplier) becomes relevant and very important as she seeks to provide free spiritual bread to six billion souls to save mankind from spiritual death resulting from spiritual starvation.

If it cost only a dollar to provide a lesson it means WBS will need over six billion US dollars to feed the world population, an incredible sum, where can she get such huge amount? Same question posed by Christ disciple in the feeding of the multitudes.

**The question is not how much it cost to supply every soul in the world with the bread of life but how much little are we willing to contribution? (John 6:9)**

**The cost was high for the Apostle but the conversion was easier for Christ the Lord.**

It works this way one WBS teacher invested few dollars in lessons and send to a hungry soul somewhere in west Africa and today that same hungry soul who is filled with the bread of life reaches out to thousand across three nations in west African providing freely what others have paid for to many and hundred are not only being fed but are being save and added unto Christ's Church. For a few dollars the Lord has multiply her giving by saving many souls. That student is Isaac Daye converted 31 years ago.

The Lord is seeking many like the little boy to give the little they have to Christ to be transform into spiritual bread the word of God for free supply.

I count it a great joy to be an errand boy of Christ in the distribution of His word, the spiritual bread which is package in Bible correspondence lessons supplier by world Bread supplier (WBS).

Recent I undertook a mission trip to Sierra Leone and Liberia to hold a WBS seminar in Bo and Monrovia respectively and had the privilege of enrolling several hundreds hungry student for the free supply of the bread of heaven and in the process five WBS student surrendered their life in baptism.

Even these days when we appeal for little support to continue to pay for mission trips and do the work we do as missionaries response are very slim and scarce.

I pray that we do not lost our limited support but that the Lord will increase our support and thereby increase our service to supply His word freely.
